

Universal Avionics Navigation Database Alert

NOTE: You must make this information available to appropriate crew members or customers immediately!

Date: November 24, 2021

Subject: Helicopter procedures missing from databases
Revised database available to include missing procedures
Cycle 2112

To: Universal Avionics FMS users operating helicopter databases

Several helicopter approaches were inadvertently omitted from the data provided by Lufthansa Systems to Universal Avionics. Lufthansa Systems has provided corrected data files. Universal have reprocessed the helicopter databases listed below:

- 802-AH
- 802-BH
- 1000-H
- 1000-HAR
- 1000-HRF
- 802-GHC
- 802-CZ
- 1000-CZ
- 1000-HZX

Corrected databases were posted to UniNet on Thursday, 24 November 2021 at approximately 23:45 UTC. **Any Cycle 2112 Universal Avionics database part number listed downloaded prior to that time does NOT include the approaches.**

To confirm the revised database is correctly loaded and is the active database in the FMS, select the Data/Nav page. The text "Rev A" with the database name and expiration date (30-DEC-2021) should be displayed on the screen.

For those customers who receive physical media from Universal Avionics, this alert letter is included in the revised shipment. Do NOT use the database provided in the earlier shipment.

For additional assistance or support, please contact Universal Avionics Customer Support.
