FIMP Offset ILS RWY14

« [Back](#)

Date posted 15/12/2011 11:35:52
Subject FMS Navdata
Title FIMP Offset ILS RWY14
Data file
Signed Yes

Country: Mauritius

Subject: FIMP Offset ILS RWY14

Reference: AIRAC SUP S011/11

Please note that the Mauritius AIRAC SUP S011/11, amending the ILS/Localizer facility and approaches for FIMP RW14, was not incorporated into the Navtech databases for cycle 1113.

This supplement is valid from 14th December 2011 to 15th April 2012 and temporarily suspends ILS/localizer "IPL" and associated procedures, replacing it with a temporary offset localizer "I-OPL" and new approach procedures.

Customers are warned not to use ILS "IPL" nor the ILS/DME RW14 approach "I14" coded in Navtech databases for cycle 1113.

The temporary offset localizer "I-OPL" and ILS/DME approach "I14" will be incorporated in Navtech databases for cycle 1201.
